# ABRAACYADA (COLONOSCOPY)

Baaritaan ka taabi galsan kan (colonoscopy) ma jirro kolka ay noqoto helida iyo ka hor taggida kansarka mindhicirka. Raac sedexsan talaabo si aad u yareeyso wa-walka aadna uga dhigto (colonoscopy) kaaga mid dhib yar.

## 1. Balanqabso.

Waxa ugu duran ee ku saabsan (colonoscopy) waxaa laga yaabaa inuu yahay dirida telefoonka balan-qabsiga. Xasusnow, waxaa laga yaabaa inaad u baahato inaad waqtii ugu maqnaato shaqada diyaar garowga, iyo maalinta baaritaanka awgood.

**Talo siin:** Qabso balanta (colonoscopy) subax Isniin ah, si kolkaa aad u sameeyso diyaar garowga Axadda oo kolkaa shaqada aad uga maqnaato hal maalin ah uun. Balanta qabso subaxa hore maadaama aad qatanaan doonto aadna doonayso inaad wax cunto kolka laguu ogolaado wax cunida!

## 2. Diyaar-Garowga.

mindhicirka nadiifka ahi waxa uu fududeeyaa helida iyo soo goynta calaqyada. Hubi inaad raacdoo talooyinka dhaqtarkaaga aad waydiiso wixii aan kuu kala cadeyn dhaqtarkaaga inta aad la joogto ama aan balanta la gaarin.

Inta badan, nadiifinta habka dhiifshiidku macnahiisu waa in la cuno cuntooyin burka cad-cad ka sameysan dhowr cisho ka hor baaritaanka iyo in biyo cad uun la caboo maalinta ka horeeysa baaritaanka. Jikadaadda soo dhigo cuntooyinka ay ku jiraan:

- bariis cadde, baasto, iyo rooti
- bataati shiidian (aan gal lahan)
- khurdaha iyo miraha ku jira gasacyada
- cabitaanada qasan ee cad (tufaaxa ayaa ugu fiican) Jell-o (laakiin iska ilaali guduudka, orjanaatada, ama kuwa lah midabyada gjir-gjir ah)
- cabitaanada fudud ee cad (sida Sierra Mist ama 7-up, qaar badan oo ka mid ah isbitaalkadu xataa waa ogol yihiin root beer!)
- kafee ama shaah (aan caano ama cadeyslahayn) fuud

Dhaqtarkaagu waxa uu kuu qori doonaa dareere caloosha socodsiiya. Si ay kaaga caawiyaan in cabitaanadda aad cabaysaa ay hoos ugu dagaan:

- Cabitaanku ha qaboobaado
- Ku cab cabitaanka tuubada wax lagu caboo oo aad dhuunteeda afka gadaalkiisa aad gelisay
- Nuug nacnac ad-adag ama liin si aad u dhigto dhadhanka

**Talo siin:** Hadii tilmaamaha lagu siiyey ay ku jiraan inaad ku walaaqdo cabitaan kale (sida Gatorade) ha ku walaqaan cabitaanka mid ka mid ah dhadhanada aad ka hesho—markaa wixii ka dambeeyaa ma ahaan doono mid aad ka hesho!

Inaad musql u dhawaato maalinta diyaar-garowgu waa lagama maarmaan. Dad badani waxa u arkaan in isticmaalida warqadaha qoyan ee wax lagu tirtiraa ay ka fiican yihiin isticmaalida warqadaha caadiga ah ee musqusha.

**Talo siin:** Mari dabada kareemka baabasiirka (ama xataa boomaatada canbaarta xafaashada lo oadeegsado) ka hor inta inta aadan bilaabin diyaar garowga si aad u ilaaliso maqaarkaaga aadna u yareeyso nafis la'aan. K dib mar markii aad u baahantaba.

## 3. Is-deji (zen).

Inaad degan tahay maalinta baaritaanku waa muhiin. Wal-walka badani waxa u ka dhigi karaa hawsha oo dhan mid dhib badata. Ha ka baqin inaad waysiiso su'aalo dadka ku saabsan suuxinta, habraaca iyo maareynta wixii raaxo darro ah.

Ka dib kolka (colonoscopy), la sameeyo waydiid dhaqtarada su'aao ku saabsan natijjooyinka. Ka dib ka ogow dhaqtarada kolka la sameeynayo (colonoscopy), kaa xigga ama hadii ay jiraan wax talaabooyin kale oo dheeraad ah oo aad u baahan tahay inaad qaado.
