

MSTAR Alumni

2011

Site	Name	Home Institution	Mentor	Project
UCLA	Armen Aivazi	Stony Brook U.	Jonathan Wanagat, MD	Muscle aging in Bivalvidae models of exceptional longevity
UCLA	Denrick Cooper	Case Western Reserve U.	Stanley Carmichael, MD	Neurogenesis and Angiogenesis in Photothrombotic Stroke
UCLA	Theodore De Beritto	U. of Utah	Edmond Teng, MD	Reliability of the Rey-Osterreith Complex Figure Test for Identifying Mild Cognitive Impairment
UCSF	Liezel Dimaano	UCSF		Clinicians' Reasons for Nonprescription of Guideline Recommended Drugs to Older Patients with Heart Failure
UCLA	Emily Dubina	UCLA	Jennifer Anger, MD	Correlates and Prevalence of Urinary Incontinence Among Older Community-Dwelling Californians
UWASH	Michelle DuMond	Stony Brook U.	P. Rabinovitch; S. Johnson	Mitochondrial Changes in Cardiac Failure and the Aging Heart
UCLA	Amanda Ernst	Medical College of Wisconsin	Tara Gruenewald, PhD	Does Adiposity Play a Role in SES Gradients in Cognitive Functioning?
UCSF	Jeanne Feuerstein	U. of Arizona	Bruce Miller	Executive Function in Pre-Motor Huntington's Disease (HD)
UCSF	William Goodson	UCSF	Deborah Barnes	Exercise & Self Reported Sleep Quality in the Elderly
UCLA	Tyler Gutkowski	U. of Cincinnati	Areti Tillou, MD	Alcohol and Injury Among Older Adults
UWASH	Pehr Hartvigson	U. of Washington	Bill Banks	Oxidative stress increases liver protein carbonylation, inhibits peripheral Abeta clearance, and increases expression and 4-hydroxynonenal modification of liver LRP1
UWASH	Julia Herbert	U. of Washington	Elizabeth Phelan	Can the Timed Up and Go be used to define severity of fall risk?"
UCLA	Monica Katz	John A. Burns SOM	Arleen Brown, MD	Neighborhood socioeconomic disadvantage and walking: the Cardiovascular Health Study
UCOLO	Greg Kuhlman	U. of Cincinnati	Cari Levy, MD	The Effect of an Inpatient Palliative Care Unit on Cost of Care
UCSF	Nancy Lin	U. of Texas	Bruce Miller	Measuring Anosognosia in Frontotemporal Lobar Degeneration
UWASH	Stephanie Lukas	U. of Washington	Bill Banks	Carbonic anhydrase inhibitors protect the blood-brain barrier in a type II diabetes mellitus model
UCLA	Shazia Lutfeali	Georgetown U.	Harry Vinters, MD	Tau Pathology in Hippocampal Subgranular Layer
UWASH	Mamonette Marallag	U. of Hawaii	May Reed	Collagen from Aged Mice Exposed to Short-term Caloric Restriction and Rapamycin Display Unique Properties
UCLA	Michelle Park	Case Western Reserve U.	Cathy Alessi, MD	Sedative Medication Use Among Older Outpatient Veterans with Undiagnosed Sleep Apnea
UCLA	Toni Anne Riveros	UCLA	Liana Apostolova, MD	Cortical Atrophy and Gene Expression Levels in Cognitively Normal Elders and Subjects with Mild Cognitive Impairment
UCLA	Eric Trieu	UCLA	David Ganz, MD	A Qualitative Review of Exercise Interventions to Reduce Falls in Older Adults
UCSF	Sarah White	UCSF	Alexander Smith	Clinical Perspectives on Providing Prognosis to Frail Elders
UCLA	Peter Wroe	U. of Chicago	Arash Naeim, MD	Cancer and Vulnerability in Older Medicare Beneficiaries
