

Resident Education Lectures

Resident Education Lectures will be held each Wednesday morning from 7:00AM to 8:00AM in Ronald Reagan UCLA Medical Center, Conference Room B124 (subject to change). Each faculty member or guest speaker is designated one topic from the core-curriculum and will prepare a comprehensive talk designed to elucidate all aspects of the topic to share.

On occasion, a Resident Presenter will assist in presenting material from the assigned reading pertaining to the topic of the week.

Similarly, “hot seat” style lectures will be held on occasion with unknown cases. These lectures are designed to give residents ample opportunity to practice formulating treatment plans, discussing management of potential complications, and to prepare for independent clinical practice.

All lectures will be accessible via webcast to residents on off-site rotations.
