

PAINTING AND COATING**09 90 00****A. GENERAL**

1. Materials shall be “best” commercial quality products by firms with over 5 years manufacturing experience with a full product line. Prime coats and finish coats for any 1-paint system shall be the products of the same manufacturer.
2. Architectural coatings shall comply with the Green Seal Standards GS-11 and the most current LEED Requirements, whichever is more stringent.
3. Visible surfaces behind vents, grilles, etc., shall be painted flat black.
4. Inside wood surfaces of all drawers, shelves inside cabinets, and other wood surfaces where scheduled or noted, shall be given one coat of clear gloss lacquer, or clear polyurethane-base varnish.
5. Manufacturer: Dunn Edwards or equal.
